👤 Personal Statement

A passionate software engineer with expertise in full-stack development and cloud technologies. Experienced in building scalable applications using modern frameworks and best practices. Strong problem-solving skills and a commitment to writing clean, maintainable code.

👜 Work Experience

Software Engineer

2025 - Present

SupremeTech Co.,Ltd

Authored blogs and documentation to optimize development workflows and share best practices for building applications on Serverless architecture. Enhanced project consistency by implementing automation testing, including Unit Tests and Integration Tests.

Technical Writing

AWS

Nest.js

Spring Boot

Serverless

Lua

RabbitMQ

Jest

Education

Bachelor of Science in Computer Science 2013 - 2017

University of Technology

Studied algorithms, data structures, software engineering, and computer systems. Graduated with honors.

- Dean's List 2015-2017
- Senior Project: AI-Powered Recommendation System
- Teaching Assistant for Data Structures course

Skills

Frontend Development

- Vue.js
- React
- Angular

Backend Development

- Node.js
- Python
- Java

- HTML5
- CSS3
- TypeScript

Database

- MySQL
- PostgreSQL
- MongoDB
- Redis

- PHP
- Laravel
- Spring Boot

Cloud & DevOps

- AWS
- Docker
- Kubernetes
- CI/CD
- Git

Other Skills

- Agile
- Problem Solving
- Team Leadership
- Technical Writing

Professional Certifications

AWS Certified Solutions Architect
